January 2024

Energiequelle GmbH opens new office in Kiel

Sören Lang is the new Head of Project Management in Schleswig-Holstein

Kiel, 18. January 2024. Energiequelle GmbH opened its new location in Kiel at the beginning of January. The new Schleswig-Holstein department, headed by Sören Lang, will be located on Rathausplatz in Kiel. The old building in the city center benefits from its direct proximity to the Kiel Fjord and the main train station. The office has workspace for twelve employees and is also equipped with a spacious conference room.

Sören Lang, Head of Project Management in Schleswig-Holstein, is convinced by the new location: "The office in Kiel strengthens our regional roots and offers short distances to our projects in Schleswig-Holstein. We also expect the university and state capital to offer us good opportunities for recruiting staff."

The branch in Kiel represents the 25th location of Energiequelle GmbH and is the fifth new opening within a year. The company is experiencing strong growth and currently employs more than 550 people in Germany, France, Finland and Poland.
